Dear iMAPS New England Members, Supporters, Friends and Colleagues!

The COVID-19 Pandemic is forcing everyone to make changes to our everyday lives. Your Chapter Leaders have been in frequent communications in recent weeks to determine our response to the declarations and guidance received from Federal, State and Local Governments, CDC and IMAPS HQ.

Due to the current guidelines and restrictions, we have decided to postpone our upcoming 47th Symposium & Expo until, at least, October 2020, and, in addition, suspend planning of all other "in-person" meetings or events, until the situation improves. The Health and Safety of our members, the NE Technical Community and general public is our primary concern. In the interim, we'll be using our Newsletter to communicate with you, our constituents, and exploring options for on-line and virtual meetings.

Although our Symposium & Expo is the headliner of our annual Chapter activities, our strong financial position and your support have prepared us well for surviving this disruption as well as might be expected for a non-profit with limited budget.

Please stay safe and tuned in for further updates as this situation is still developing.

Sincerely,

Dmitry Marchenko, 2020 IMAPS New England Chapter President

Matt Bracy, 2020 IMAPS New England Chapter Vice-President
